

The Herschel HAWAII is a powerful, hanging heater for heating outdoor areas under a canopy or overhead shelter. Suitable for both commercial and domestic outdoor environments the 2000W infrared Hawaii is a warm glow, middlewave heater, producing immediate, effective warmth for colder areas. Hawaii incorporates Herschel's long life carbon fibre middlewave heating lamp which produces a very pleasant level of heat and deep orange, no glare light.

The ceiling-mounted Hawaii has a stylish, circular design that is ideal for ensuring 360° focused heat coverage. It is supplied with a suspension chain kit for fixing to an overhead shelter/ceiling. Hawaii can be turned on or off via the remote control (supplied) or the remote control can be bypassed and the heater can be controlled directly via an alternative control system. The Hawaii can also be used indoors in garden rooms, gazebos and public halls and restaurants.

The unobtrusive Hawaii heater provides the ideal solution for enjoying longer nights outdoors underneath a shelter.

Available Models

Part Number	Rated Power	Dimensions	Weight	Heated Zone m ²
M-HAWAII-2000	2000W	50 x 25 cm	3.5 kg	4 - 7 Outdoors 6 - 12 Indoors

Technical Details

Heating Element	Ultra long life Carbon heating lamp (up to 10,000 hours)
Voltage	220 - 240V 50 Hz
Body	Aluminium
Remote Control	On/Off function
Warm Up Time	5 - 10 Seconds
Useful Wavelength Range	2 - 5µm
IP Rating	IP44
Cable	2m
Certificates	UK CA CE
Warranty	2 years

IMPORTANT

Please refer to the Herschel Hawaii Installation Manual before installation. In exposed areas with air movement/wind the infrared spread may reduce by 1/3 to 1/2. In these areas we recommend mounting at the lowest height and proportionally increasing the number of heaters. The minimum installation height of the HAWAII above the floor is 1.8m (71"). In all cases it should be installed at a height where it cannot be touched in operation. The heated zones detailed are based on the recommended mounting heights of between 2.1-2.4m. The Hawaii comes with a plug. Suitable for outdoor use. Always refer to the installation instructions before use and installation.

The Herschel Hawaii is guaranteed against failure due to faulty materials or workmanship for two years. The warranty excludes the lamp and remote control. In the unlikely event of failure of the unit within this time, the unit must be returned to the supplier for repair or replacement. Refer to the warranty policy on Herschel-infrared.co.uk for more detail including exclusions. The guarantee is invalid if the correct installation instructions have not been adhered to. Ensure supply voltage does not exceed 240 Volts.
